JongWon Kim

kjw65144128@gmail.com

RESEARCH INTERESTS

- **Reinforcement Learning**
- **Federated Learning**
- **Adversarial Attack/Defense**

EDUCATION

Dankook University (2020.03~2025.02)

B.S, Department of Information Statistics

Advisor: Prof.Dongjae Kim

Daegu Gyeongbuk Institution of Science and Technology (2025.02~Present)

M.S, Department of Artificial Intelligence

Advisor: Prof.Jinhyun So

PUBLICATIONS

계층적 강화학습에서의 표준적 계층 추가 방안: Timely Hierarchical Elaborated FeUdal Networks

JongWon Kim, Dongjae Kim
In: Korea Computer Congress, 2023

HierarchyDrop: Dynamic Hierarchical Reinforcement Learning for Long- and Short- Term Subgoals

JongWon Kim, Wonseo Jang, Dongjae Kim
In: The Multi-disciplinary Conference on Reinforcement Learning and Decision Making, 2025

AROMMA: UNIFYING OLFACTORY EMBEDDINGS FOR SINGLE MOLECULES AND MIXTURES

Dayoung Kang, **JongWon Kim**, Jiho Park, Keonseock Lee, Ji-Woong Choi, Jinhyun So
In: International Conference on Acoustics, Speech, and Signal Processing, 2026

FEDCRUM: DUAL-SPACE FEDERATED BACKDOOR DEFENSE VIA CLASS-RELATION GEOMETRY AND UPDATE MAGNITUDE

Jongwon Kim, Donggyu Lee, Juseok Jeon, Daehee Park , Jinhyun So
preprint: International Conference on Acoustics, Speech, and Signal Processing, 2027

EXPERIENCE

Research Assistant (B.S.)

- *Researched Temporal Abstraction for Hierarchical Reinforcement Learning*

Research Assistant (M.S.)

- *Researching representation learning for multi-label odor classification by modeling odor relationships*
- *Project: National Research Foundation of Korea (NRF), Development of a Bidirectional Artificial Intelligence Olfactory Converter,*
  (2025.02–2025.12)
- *Project: Korea Institute of Human Resources Development in Science and Technology(KIRD), Real-Challenge Program (2026.06.01~2026.10.31）*

TEACHING & ADVISING

Teaching Assistant for *"Introduction to Programming"* (Prof.Jisoo Mok)

Daegu Gyeongbuk Institution of Science and Technology, (2026.02~present)

SKILLS

Languages: Korean(native), English(intermediate)
Program Languages: Python, R, C
Tools:

Data Mining: Numpy, Pandas, Scikit-learn, Matplotlib, Seaborn
Machine Learning: Pytorch. Tensorflow
Others: SQL

PRIZE

Outstanding Undergraduate Paper Award
Korea Computer Congress, 2023
